

## RX Recessed Ceiling Heaters - Wireless Controlled

Designed to fit in place of a 600mm standard ceiling panel. This makes it ideal to heat areas where wall and floor space is at a premium such as shops and offices. Our wireless controlled models offer the possibility of major energy savings, greater comfort and 7 day control.

- 3kW, 4.5kW and 6kW models
- Fits standard 600mm modular suspended ceiling system
- Wireless controlled by a separately purchased RX controller
- Choice of RX heating system:
  - Single-zone with CRXSL
  - Multizone with MRX1 and CRXSL
  - RXLC landlord control with MRXLC and CRXLC
- CRXSL and CRXLC controllers can operate multiple RX heaters
- Fan only setting for air circulation
- Quiet operation
- Sealed heater box for improved energy efficiency
- Automatic safety cut-out
- Complete with white aluminium diffuser
