

## High Output GU10 LED 6.2W = 80W Philips Master LED

**Product Code:** 929001349\*02**Stock Qty:**

### Product Description

Philips Master LED 6.2 watt GU10 LED that has a higher lumen output of up 575 lumens making it one of the brightest GU10 LEDs on the market. At 575 lumens it would be comparable to an 80 watt GU10 halogen. In comparison to a 50 watt halogen, which has a light output of around 400 lumens.

Or if you're looking to replace a 50 watt halogen MR16 LED and want to convert to a GU10 LED like many customers choose to do, then this would be a great option especially if you don't want to compromise on light output.

Now part of the Master LED series it comes with a high CRI of Ra90 which reproduces colours more accurately. The closer you get to Ra100 the closer it would be to daylight conditions. Ordinary LED lamps have a CRI of Ra80.

The Philips Master LED range is affordable selection of high quality LED lamps from the worlds leading lighting manufacturer. Philips LED lamps are widely regarded as the best in the industry offering superior quality and longevity. Although it is brighter than other GU10 LEDs its still a perfect fit LED with a depth of 54mm meaning it can be used in traditional GU10 downlight housings. As many of the brighter GU10 LEDs are physically deeper so don't always fit.

Available in extra warm white 2700K, warm white 3000K cool white 4000K, and daylight 6500K colour temperatures. It is dimmable as standard. This product is twice as bright as the original Philips 7 watt GU10 LED which was the very first dimmable GU10 LEDs to enter the marketplace many years ago. Which is a testament that shows how much LED technology has improved in efficiency.

This is the type of GU10 LED for customers who are looking for better quality superior lighting results.

### Key Features

- Wattage: 6.2 watt / Halogen equivalent: 80W
- Colour Temperatures:
  - Extra warm white 2700K
  - Warm White 3000K
  - Cool White 4000K
  - Daylight 6500K
- Lumens: 575 lumens
- CRI: 90 Color rendering index - high CRI
- Cap type: GU10
- Beam angle: 36 degrees
- Dimmable as standard with an LED compatible dimmer switch.
- Energy efficiency label: A++
- Voltage: Mains 220-240V
- Lifetime: 25,000 hours
- Frequency: 50 to 60 Hz
- Power factor: 0.88
- Guarantee: 3 years
- Manufacturer: Philips Lighting
